---

The Honorable Governor Robert Taft and  
Elected Officials of the Ohio General Assembly,

As leaders within our faith communities we call upon you to stop Ohio executions. We believe the application of the death penalty is unnecessary and unjust. We urge you to enact an immediate moratorium on the death penalty and create a non-partisan, statewide commission to study Ohio's death penalty practices and policies. We believe a moratorium within this context will allow questions of fairness, due process, and alternatives to be carefully examined.
